

Everybody is a manager. We manage our work and our lives. Everyone needs a practical ability to solve problems, manage a project and improve their performance. The Systemic Stairway® methodology enables anyone at any level to gain these general management competencies. The Train the Trainer program will enable your organization to become self-sufficient in rolling out, supporting and embedding the Systemic Stairway® in your organization.

Train the Trainer will equip your organization with a “pod” of people who can manage the learning experiences of people in your organization who wish to improve their general management capability. The trainers will gain a thorough understanding of the Systemic Stairway® methodology via a blended program consisting of four contact days and intermodular practice:

Training and licence fees

1. Train the Trainer fee

Minimum 4 trainees @ R12 000 pp

R48,000*

**min 4 people ex VAT*

2. Annual Licence fee

@ R12 000 per annum per trainer

R48,000**

***min 4 people ex VAT*

3. Licence fee benefits:

- Access to 48 online courses (equivalent to 12 per trainer)
- Access to in-person training material
- Access to action learning process (*Learn > Coach > Embed*)
- Access to supplementary thought leadership publications

This workshop will equip you to:

1. Trainers will have full understanding of an online course and practical exercises that allows individual self study of the Systemic Stairway®.
2. They will be able to grant access to the online course, coach and support learners who are completing practical exercises and applying the methodology in their area of work.
3. Trainers will have full understanding of the in-person training material and an ability to run group training in-house.
4. Trainers will be equipped to manage the Learn > Coach > Embed action learning cycle that ensures successful implementation and roll out of the Systemic Stairway® in their organization.
5. The goal is to create an in-house center of excellence to support anyone who wishes to improve internal problem solving, project management, individual and group performance.
